NEW ARMY TRACTOR RUNS OVER LOGS AND DITCHES

The new 3-ton tractor, pushing a 10-ton log, running over a big log.

(By Newspaper Enterprise Ass'n)
WASHINGTON, June 9.—A successful demonstration of a new standardized 5-ton artillery tractor recently designed and completed by the Ordnance Department has been made. The demonstration was witnessed by French and English army officers, Secretary of War Baker and Chief of Staff March. The tests were held in a ravine outside of the city, where the mud was from 12 to 16 inches deep.

During the tests the tractor, hauling a 6-inch howitzer on a gun carriage, climbed up and down a 45 degree grade, over logs and through mud where the gun carriage wheels sank up to the hubs. One tractor, camouflaged, exhibited its turning powers by revolving at high speed in the brush.

A Liberty Class B truck engine is used, which develops 55 horse-power and propels the tractor at from 2 to 12 miles per hour. Six thousand of these tractors have been ordered and several have been completed.

SUGGESTIONS FOR RUBBER STAMPS

Idea Advanced in Letter to the West Virginian Strikes Response.

There was considerable talk around the city last evening about the letter to The West Virginian suggesting that Fairmont set the style for a rubber stamp propaganda in the interest of preparing the public to resist the coming German peace intrigue, but, characteristically a lot of the folks who talked acted on the let-George-do-it principle.

However a few suggestions for statements suitable for use in this connection were sent in, and it is altogether probable that more will come in during the next few days. Of those that have so far reached The West Virginian office the best by far is the following which was submitted by Dr. William H. Sands:

No German peace proposal will be a real peace proposal while the German army is unconquered.

Other suggestions are as follows: The German new peace offensive will bet he most dangerous of all his offenses. If it succeeds it will win the war, even if he never gets another mile nearer Paris.—Submitted by H. J. No sacrifice is too great for us stay-at-homes when others are giving their all to win the war.—Submitted by interested.

How little we are doing to win the war when we are conforming to food rules, buying Liberty bonds and Thrift stamps.—Suggested by W. I. O.

This is a hard and long war and it is not going to be won until every one of us is doing his utmost in whatever capacity he or she is best fitted.—Are we doing our part to make it end right?

When spotted he endeavored to draw his overcoat about him but the day was too warm and Sheriff Glover got wise to the situation. Wolf, it is claimed, made the remark that he would sooner buy whiskey than Liberty bonds.

DEATH OF MURRAY FOWLER.
